

SECTION 1: Identification of the	ne substance/mixture and of the company/undertaking
1.1. Product identifier	
Product name	Astra 68 Slideway Oil
Product number	7814
Internal identification	GHS21704
1.2. Relevant identified uses o	f the substance or mixture and uses advised against
Identified uses	Slideway Lube
Uses advised against	No specific uses advised against are identified.
1.3. Details of the supplier of the supplier of the supplier of the supplier of the supplication of the su	he safety data sheet
Supplier	Morris Lubricants Castle Foregate, Shrewsbury, Shropshire, SY1 2EL. UK +44 (0) 1743 232200 +44 (0) 1743 353584 sds@morris-lubricants.co.uk

## 5.1. Extinguishing media

Suitable extinguishing media	Extinguish with foam, carbon dioxide, dry powder or water fog.
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.
5.2. Special hazards arising from	om the substance or mixture
Specific hazards	Heat from fire could result in drums bursting
Hazardous combustion products	Protection against nuisance dust must be used when the airborne concentration exceeds 10 mg/m3. Oxides of carbon. Oxides of nitrogen. Fire may also create other unidentified organic gases some of which may be toxic.
5.3. Advice for firefighters	
Protective actions during firefighting	Control run-off water by containing and keeping it out of sewers and watercourses.
Special protective equipment for firefighters	Wear self-contained breathing apparatus.
SECTION 6: Accidental release	e measures
6.1. Personal precautions, pro	tective equipment and emergency procedures
Personal precautions	For personal protection, see Section 8. In case of spills, beware of slippery floors and surfaces.
6.2. Environmental precaution	<u>S</u>
Environmental precautions	Contain spillage with sand, earth or other suitable non-combustible material. Avoid the spillage or runoff entering drains, sewers or watercourses. The product is insoluble in water and will spread on the water surface.
6.3. Methods and material for	containment and cleaning up
Methods for cleaning up	Contain and absorb spillage with sand, earth or other non-combustible material. Collect spillage for reclamation or disposal in sealed containers via a licensed waste contractor. Avoid water contacting spilled material or leaking containers. Spillages or uncontrolled discharges into watercourses must be reported immediately to the Environmental Agency or other appropriate regulatory body. In case of spillage on water prevent the spread by use of suitable barrier equipment
Methods for cleaning up 6.4. Reference to other section	spillage for reclamation or disposal in sealed containers via a licensed waste contractor. Avoid water contacting spilled material or leaking containers. Spillages or uncontrolled discharges into watercourses must be reported immediately to the Environmental Agency or other appropriate regulatory body. In case of spillage on water prevent the spread by use of suitable barrier equipment
	spillage for reclamation or disposal in sealed containers via a licensed waste contractor. Avoid water contacting spilled material or leaking containers. Spillages or uncontrolled discharges into watercourses must be reported immediately to the Environmental Agency or other appropriate regulatory body. In case of spillage on water prevent the spread by use of suitable barrier equipment
6.4. Reference to other section	spillage for reclamation or disposal in sealed containers via a licensed waste contractor. Avoid water contacting spilled material or leaking containers. Spillages or uncontrolled discharges into watercourses must be reported immediately to the Environmental Agency or other appropriate regulatory body. In case of spillage on water prevent the spread by use of suitable barrier equipment Ts For personal protection, see Section 8. See Section 11 for additional information on health hazards. For waste disposal, see Section 13.
6.4. Reference to other section Reference to other sections	spillage for reclamation or disposal in sealed containers via a licensed waste contractor. Avoid water contacting spilled material or leaking containers. Spillages or uncontrolled discharges into watercourses must be reported immediately to the Environmental Agency or other appropriate regulatory body. In case of spillage on water prevent the spread by use of suitable barrier equipment  S For personal protection, see Section 8. See Section 11 for additional information on health hazards. For waste disposal, see Section 13.  rage
6.4. Reference to other section Reference to other sections SECTION 7: Handling and sto	spillage for reclamation or disposal in sealed containers via a licensed waste contractor. ### SECTION 8: Exposure controls/Personal protection

#### 8.1. Control parameters

#### Occupational exposure limits

#### Base oil - Unspecified - Distillates (Petroleum), hydrotreated Heavy Paraffinic

Long-term exposure limit (8-hour TWA): ACGIH 5 mg/m<sup>3</sup> Short-term exposure limit (15-minute): ACGIH 10 mg/m<sup>3</sup>

#### Distillates (petroleum) solvent-dewaxed heavy paraffinic

Long-term exposure limit (8-hour TWA): ACGIH 5 mg/m<sup>3</sup> Short-term exposure limit (15-minute): ACGIH 10 mg/m<sup>3</sup>

#### Distillates (petroleum) hydrotreated heavy paraffinic

Long-term exposure limit (8-hour TWA): ACGIH 5 mg/m<sup>3</sup> Short-term exposure limit (15-minute): ACGIH 10 mg/m<sup>3</sup>

#### **Mineral Oil**

Long-term exposure limit (8-hour TWA): OES 5 mg/m3(c) ACGIH = American Conference of Governmental Industrial Hygienists.

#### Bis(nonylphenyl)amine (CAS: 36878-20-3)

DNEL	Industry - Dermal; Long term systemic effects: 0.62 mg/kg Industry - Inhalation; Long term systemic effects: 4.37 mg/m³ Consumer - Dermal; Long term systemic effects: 0.31 mg/kg Consumer - Inhalation; Long term systemic effects: 1.09 mg/m³ Consumer - Oral; Long term systemic effects: 0.31 mg/kg
PNEC	- marine water; 0.01 mg/l - Sediment (Freshwater); 132000 mg/kg - Sediment (Marinewater); 13200 mg/kg - Soil; 263000 mg/kg - Fresh water; 0.1 mg/l
	Octolomine (CAS: 111 96 1)

## Octylamine (CAS: 111-86-4)

#### PNEC

Fresh water; 0.0002 mg/l

### 8.2. Exposure controls

#### Protective equipment

Appropriate engineering controls	Provide adequate general and local exhaust ventilation. Observe any occupational exposure limits for the product or ingredients.
Eye/face protection	Eyewear complying with an approved standard should be worn if a risk assessment indicates eye contact is possible. The following protection should be worn: Chemical splash goggles or face shield.
Hand protection	The most suitable glove should be chosen in consultation with the glove supplier/manufacturer, who can provide information about the breakthrough time of the glove material.
Other skin and body protection	Use of suitable barrier/afterwork creams to protect skin may be beneficial.

Hygiene measures	Use engineering controls to reduce air contamination to permissible exposure level. Wash promptly with soap and water if skin becomes contaminated.
Respiratory protection	No specific recommendations. Respiratory protection must be used if the airborne contamination exceeds the recommended occupational exposure limit.
Thermal hazards	Not anticipated under normal conditions of use. The product is combustible if heated excessively and an ignition source is applied.
Environmental exposure controls	Residues and empty containers should be taken care of as hazardous waste according to local and national provisions. Do not discharge into drains or watercourses or onto the ground.

# SECTION 9: Physical and chemical properties

9.1. Information on basic physic	ical and chemical properties
Appearance	Liquid.
Colour	Amber.
Odour	Characteristic. Oil-like.
Odour threshold	Not known.
рН	Not applicable.
Melting point	<-12°C Pour point
Initial boiling point and range	>320°C @ 101.3 kPa
Flash point	192°C Pensky-Martens closed cup.
Evaporation rate	Not relevant.
Upper/lower flammability or explosive limits	Not known.
Other flammability	Product is not flammable but on excessive heating may become combustible.
Vapour pressure	<0.1 kPa @ 20°C
Vapour density	Not determined.
Relative density	0.881 @ 15.6°C
Solubility(ies)	Insoluble in water. Soluble in the following materials: Organic solvents.
Partition coefficient	Not determined. log Kow: > 7 This figure is typical of mineral oil.
Auto-ignition temperature	No specific test data are available.
Decomposition Temperature	Not determined.
Viscosity	63.9 cSt @ 40°C
Explosive properties	Not considered to be explosive.
Explosive under the influence of a flame	Not considered to be explosive.
Oxidising properties	The mixture itself has not been tested but none of the ingredient substances meet the criteria for classification as oxidising.
9.2. Other information	
Volatile organic compound	The product is a complex mixture, the majority of which would not be classed as a VOC. However it cannot be discounted that trace or low levels of VOC's may be present.

SECTION 10: Stability and rea	ctivity
10.1. Reactivity	There are no known reactivity becards accessibled with this product
Reactivity	There are no known reactivity hazards associated with this product.
10.2. Chemical stability	
Stability	Stable at normal ambient temperatures and when used as recommended.
10.3. Possibility of hazardous r	eactions
Possibility of hazardous reactions	Under normal conditions of storage and use, no hazardous reactions will occur.
10.4. Conditions to avoid	
Conditions to avoid	Avoid heat, flames and other sources of ignition.
10.5. Incompatible materials	
Materials to avoid	Strong oxidising agents.
10.6. Hazardous decompositio	n products
Hazardous decomposition products	Oxides of carbon. Oxides of nitrogen.
SECTION 11: Toxicological inf	ormation
11.1. Information on toxicologic	cal effects
Acute toxicity - oral	
Notes (oral LD₅₀)	Not expected to be highly toxic based on information of ingredients. Based on available data the classification criteria are not met.
Acute toxicity - dermal Notes (dermal LD₅₀)	Not expected to be highly toxic based on information of ingredients. Based on available data the classification criteria are not met.
Acute toxicity - inhalation Notes (inhalation LC <sub>50</sub> )	Not determined. Considered to be a low inhalation hazard at normal workplace temperatures.
Serious eye damage/irritation Serious eye damage/irritation	May cause mild, short lasting discomfort to eyes.
Respiratory sensitisation Respiratory sensitisation	No evidence to suggest the product will be a respiratory sensitiser. Repeated exposure to oil mists may cause respiratory damage.
Skin sensitisation Skin sensitisation	Not expected to be a skin sensitizer based on information on components.
Carcinogenicity Carcinogenicity	This product contains mineral oils which are considered to be severely refined and not considered to be carcinogenic under IARC. All of the oils in this product have been demonstrated to contain less than 3% extractables by the IP346 test
Reproductive toxicity Reproductive toxicity - fertility	Based on available data the classification criteria are not met.
Specific target organ toxicity -	single exposure
STOT - single exposure	Based on available data the classification criteria are not met.
Specific target organ toxicity - I	repeated exposure

STOT - repeated exposure	Based on available data the classification criteria are not met.
Aspiration hazard Aspiration hazard	Kinematic viscosity > 20.5 mm <sup>2</sup> /s. The product viscosity is greater than the upper limit assigned for classification. Although not classified, the product contains mineral oil. If aspirated into the lungs e.g. through vomiting after ingestion, admit to hospital immediately.
General information	This product has low toxicity. Only large quantities are likely to have adverse effects on human health.
Inhalation	Unlikely to be hazardous by inhalation because of the low vapour pressure of the product at ambient temperature.
Ingestion	No harmful effects expected from quantities likely to be ingested by accident.
Skin contact	Skin irritation should not occur when used as recommended. Repeated exposure may cause skin dryness or cracking.
Eye contact	May cause temporary eye irritation.
Acute and chronic health hazards	Prolonged or repeated contact with used oil may cause serious skin diseases, such as dermatitis and skin cancer.

SECTION 12: Ecological inform	nation	
Ecotoxicity	Based on available data the classification criteria are not met. Not regarded as dangerous for the environment.	
12.1. Toxicity		
Toxicity	Based on available data the classification criteria are not met. Not considered toxic to fish.	
Acute aquatic toxicity		
Acute toxicity - aquatic invertebrates	Based on available data the classification criteria are not met.	
12.2. Persistence and degrada	bility	
Persistence and degradability	The product contains mineral oil which has limited biodegradability in CEC test methods but will biodegrade slowly in aerobic water and sediments and is considered ultimately biodegradable.	
Stability (hydrolysis)	The product is based on highly refined mineral oils that are considered stable to hydrolysis.	
Biodegradation	The product is not considered readily biodegradeable, albeit the major constituents are expected to ultimately biodegrade.	
Biological oxygen demand	Not determined.	
Chemical oxygen demand	Not determined.	
12.3. Bioaccumulative potentia		
Bioaccumulative potential	Bioaccumulation is unlikely to be significant because of the low water-solubility of this product.	
Partition coefficient	Not determined. log Kow: > 7 This figure is typical of mineral oil.	
12.4. Mobility in soil		
Mobility	The product is non-volatile. The product is insoluble in water and will spread on the water surface.	
Henry's law constant	Not determined.	
12.5. Results of PBT and vPvB	assessment	
Results of PBT and vPvB assessment	This product does not contain any substances classified as PBT or vPvB.	
12.6. Other adverse effects		
Other adverse effects	None known.	
SECTION 13: Disposal considerations		
13.1. Waste treatment methods	3	
General information	This material and its container must be disposed of as hazardous waste. Dispose of waste via a licensed waste disposal contractor.	
Disposal methods	Waste, residues, empty containers, discarded work clothes and contaminated cleaning materials should be collected in designated containers, labelled with their contents. Dispose of waste via a licensed waste disposal contractor.	
Waste class	European waste catalogue (EWC) number = 13 02 08* (other engine, gear and lubricating oil)	
SECTION 14: Transport inform	ation	

#### General

The product is not covered by international regulations on the transport of dangerous goods (IMDG, IATA, ADR/RID).

#### 14.1. UN number

Not applicable.

#### 14.2. UN proper shipping name

Not applicable.

#### 14.3. Transport hazard class(es)

No transport warning sign required.

#### 14.4. Packing group

Not applicable.

### 14.5. Environmental hazards

Environmentally hazardous substance/marine pollutant No.

#### 14.6. Special precautions for user

Not applicable.

### 14.7. Transport in bulk according to Annex II of MARPOL and the IBC Code

## Transport in bulk according to Not applicable. Annex II of MARPOL 73/78 and the IBC Code

#### SECTION 15: Regulatory information

#### 15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

National regulations	Health and Safety at Work etc. Act 1974 (as amended).
	The Chemicals (Hazard Information and Packaging for Supply) Regulations 2009 (SI 2009 No. 716).
	Control of Substances Hazardous to Health Regulations 2002 (as amended).
	The Carriage of Dangerous Goods and Use of Transportable Pressure Equipment
	Regulations 2009 (SI 2009 No. 1348) (as amended) ["CDG 2009"].
EU legislation	Dangerous Preparations Directive 1999/45/EC.
-	Dangerous Substances Directive 67/548/EEC.
	Regulation (EC) No 1907/2006 of the European Parliament and of the Council of 18
	December 2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH) (as amended).
	Regulation (EC) No 1272/2008 of the European Parliament and of the Council of 16
	December 2008 on classification, labelling and packaging of substances and mixtures (as amended).
Guidance	Workplace Exposure Limits EH40.
	Safety Data Sheets for Substances and Preparations.
